GDP v1.64 - GDP Control Software

Today Panavision releases GDP software v1.64 for Windows XP and Windows 7. This build includes:

- Control of multiple PIP's and/or GDP's on the same network
- (w/firmware v1.53) DPX frame grabbing and grading on select Panavision Image Processors (PIP) and Gamma Display Processor 2's (GDP2). GDP2's must also have their TSA update.

Known Issues:

- Apple Color Support not included on Windows
- Bypass button in the Frame Store tab shows the live, unprocessed image

If you have any questions please contact your local Panavision Technical Representative, or Josh Limor at 818.316.1000.
