GDP v1.68 - GDP Control Software

Today Panavision releases GDP software v1.68 for Mac. This build includes:

- Mac OS X (10.7.x) Lion support
- DaVinci Resolve LUT support (.cube)
- Apple Color LUT support
- Control of multiple PIP's and/or GDP's on the same network
- (w/firmware v1.53) DPX frame grabbing and grading on select Panavision Image Processors (PIP) and Gamma Display Processor 2's (GDP2). GDP2's must also have their TSA update.

If you have any questions please contact your local Panavision Technical Representative, or Josh Limor at 818.316.1000.
