

Light Iron Dailies. Powered by Galaxy.

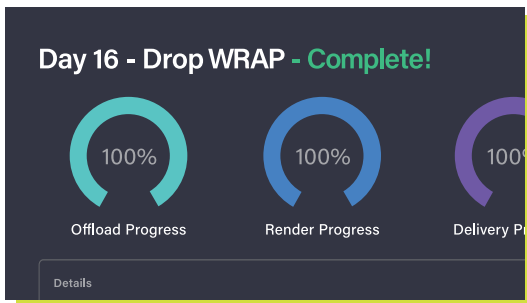

Dailies are now integrated into Light Iron's Galaxy platform. Our trusted dailies workflow remains unchanged, with Galaxy significantly streamlining the processes around that workflow, providing a direct connection to your dailies project.

Within Galaxy, you can now access your project at any time, without the need for emails, texts, or phone calls back and forth with the facility. The built-in efficiencies of Galaxy's dailies integration ensure greater accuracy and speed each step of the way, allowing you to make decisions faster.

Access your dailies project anytime, from desktop or mobile.

Real-time progress bars showing the status of offloads, renders, and deliveries

Intuitive dashboard with a concise overview of important project information

Searchable project database for quick, easy navigation across all your shots
